

TECHNICAL CARD

FLUE CURED BY INAWERA

In accordance with the Art. 31 of Regulation 1907/2006/EC (REACH), the product is not classified as hazardous, therefore there is no obligation for a safety data sheet.

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

FLUE CURED BY INAWERA

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: aromatizing composition

1.3 Details of the supplier of the technical card

Responsible entity: Inawera DOT COM sp. z o.o Spółka Komandytowa
Address: Jeżynowa 11, 20-258 Turka, Poland
Phone: +48 516 653 075

Address of a person responsible for technical card: biuro@inawera.com

1.4 Emergency telephone number

112

Section 2: Art. 32 of the Regulation 1907/2006/EC

2.1 Registration number

The product does not require a registration number in accordance with Regulation 1907/2006/EC

2.2 Permissions/restrictions

The product is exempted from the permissions/restrictions in accordance with Regulation 1907/2006/EC

Section 3: First aid measures

The person providing assistance should undertake all precautions measures ensuring a safe possibility to perform rescue action in the direct health hazard.

3.1 Description of first aid measures

Inhalation:

Immediately move the injured person from a place where the vapors are released and provide access to fresh air. Make injured person deeply inhale and exhale. If the injured person lost the consciousness, but respires, move him into lateral position, constantly watching him. If there is not a breath, open the airways of the injured person and begin CPR – artificial respiration in the pace of 30 inspirations and 2 pressures per minute on the thorax.

Skin contact:

Take off immediately contaminated clothes. Wash out contaminated skin with plenty of water and soap. In case of irritation wash out with water until the scorching vanishes or medical aid comes. If the irritation prolongs consult a doctor immediately.

Eye contact:

Remove any contact lenses. Wash out contaminated eye with plenty of water for at least 15 minutes with the eyelid hold wide open. If redness persists contact with ophthalmologist.

Ingestion:

Do not vomiting. Call medical aid. Rinse mouth with water and drink plenty of water. If the injured person lost the consciousness, but respires, move him into lateral position, constantly watching him. If there is not a breath, open the airways of the injured person and begin CPR – artificial respiration in the pace of 30 inspirations and 2 pressures per minute on the thorax until medical aid comes.

3.2 Most important symptoms and effects, both acute and delayed

In case of a contact of the product with the skin possible are skin rednesses and irritations. In case of eye contact redness is possible. In case of ingestion irritations of digestive track are possible with vomiting and nauseas. Prolonged symptoms require an immediate medical help.

Section 4: Exposure controls/personal protection

4.1 Technical guidance

Ensure adequate ventilation and places to wash the eyes, hands and the storage protective clothes (hangers, wardrobes) place for the working time and after its end. All protections should be chosen to at least one substance on a highest per cent concentration in the mixture. It is advised to take precautions to avoid mixture skin and eye contact during its use. Change contaminated clothes. Wash hands after work with mixture or started work break with mixture.

4.2 Respiratory tract

In the normal condition of the product use it is not required to use filter masks. In case when there is a possibility of vapour appearance you should use ventilation to get rid of contaminated air from work place.

4.3 Hands and skin protection

Use protective clothes and adequate butyl gloves to avoid the product skin contact. While longer work you must often change gloves to new ones. Gloves should meet local and European Union norms.

4.4 Eye protection:

Use protective goggles to avoid product eye contact.

Before work with protective clothes or equipment, watch them carefully, look after the date of use. If they will lose their properties during the work, change them immediately to new ones. Read carefully the information enclosed to clothes or equipment.

The final decision about using protective clothes should be undertaken after familiarizing with work conditions, taken along with Health and Safety worker.

Section 5: Firefighting measures

5.1 Extinguishing measures

Suitable extinguishing measures: extinguishing powders, extinguishing foams, CO₂.
Unsuitable extinguishing measures: compact water flow.

5.2 Special hazards arising from the substance or mixture

If burning, may produce hazardous fumes or vapors: carbon dioxide, carbonyl compounds.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Ensure appropriate ventilation. Use protective clothes and all security measures to avoid the contact of the product with the skin and eyes.

6.2 Environmental precautions

Secure gullies from getting the mixture into sewage system, surface water and ground water. Place little capacities of the product on the absorbing mats. In case of a transport use absorbing baths.

6.3 Methods and materials preventing the contamination and cleaning up.

In case of contamination of the product save sewage system from further leaks by embanking or the use of absorbing materials (sand, diatomaceous earth, sawdust, binders) or remove to closed containers. Secure damaged containers. A dollop of mixture rinse with plenty of water. The place of contamination wash with detergents.

Section 7: Handling and storage

7.1 Precautions for safe handling

The product should be used in a well ventilated rooms far away from the sources of heat and ignition and electric wires. Do not inhale vapors. It is advised to take safety precautions to avoid the skin and eye contact of the mixture. Do not eat, drink, smoke in a work place. After work or in case of leaving the work place wash hands carefully and take off the workwear.

7.2 Conditions for safe storage, including any incompatibilities

Protect from the sunshines. Keep in a dry, ventilated, dark place, in the temperature 5-20°C away from heating sources in tightly closed, original container.

Section 8: Physical and chemical properties

8.1 Information on basic physical and chemical properties

Appearance: State of matter – liquid, colour – colourless - brown
Odour: tobacco, smoked plum
Relative density: 1,071 – 1,111 g/cm³ (20°C)

8.2 Other information

No additional data.

Section 9: Disposal considerations

Waste treatment methods

Store the product in original containers. Do not pour into sewage. Reuse in accordance with the local legislation. Recycle or reuse or liquidate empty containers in accordance with local legislation. Disposal method can be found in the directive of European Parliament and Council: 2008/98/EC, 94/62/EC.

Section 10: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture:

- Regulation (EC) no 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, authorization and Restriction of Chemicals (REACH), setabllishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) no 793/93 and Commission regulation (EC) no 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 200/21/EC
- Regulation (EC) no 1272/2008 of European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) no 1907/2006
- Regulation (EU) 2016/425 European Parliament and of the Council of 9 March 2016 on personal protective equipment and repealing Council Directive 89/686/EEC
- Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives
- European Parliament and of the Council 94/62/EC of 20 December 1994 on packaging and packaging waste

Section 11: Other information

The information contained in this technical card is intended to describe only terms of safety requirements. An user is responsible for taking all necessary steps for the requirements of national law and to create conditions for safety use of the product. The user takes full responsibility for the consequences of the use of this product.
